## SALE - 30% Yarn Unit

This Dutch brand is well known for its sustainable, high quality pieces, perfect fit and extraordinary use of natural materials. What a lot of people don't know, is that this label gets its fabrics from Italy and that the production takes place in Portugal. This way Yarn Unit supports the local production in southern European countries, assuring fair and safe labor conditions and diminishing the use of fuel (better for the environment). Yarn Unit is exploring the use of new eco friendly materials like modal and tencel, combining this with the finest wool & silk. Come and see at ANNLIZ boutique and enjoy an introduction discount of 30% on the entire Yarn Unit collection.
